

## Computer Technologies Certificate

18 Credit Hours

The Computer Technologies Certificate will expose the student to a general overview of the computer area. Students will study computers, networks, operating systems and programming. Graduates from this are prepared to work as a Computer Technician, or to apply these classes to any other degree in the computer division.

Course work will develop a student's ability to communicate complex technical issues related to computer hardware, software, and networks in a manner that computer users can understand. Classes cover computer operations and terminology, operating systems, database, networking, security, and technical support.

Graduates should qualify for entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to manage information. Graduates should be prepared to sit for industry-recognized certification exams.

Length: 2 Semesters

Prerequisite: High School Diploma

Award: Certificate

<b>Subject Category</b> <i>(subject to revision)</i>	<b>Credit Hours</b>
Introduction to Computers	3
Introduction to Prog and Logic	3
