

Basic Certificate in Business and Industry Technology

15 Credit Hours

The Basic Certificate in Business and Industry Technology is available to meet the needs of business, industry, and government agencies. It can be customized for apprenticeship, workforce development, and special clientele in need of a custom credential.

The intent of the certificate is to provide students a body of knowledge and skill that is coherent and provides opportunities for career advancement. The choice of these electives usually requires a partnership between Pima Community College and another organization or educational institution.

Core Course Requirements for Basic BIT Certificate:

A grade of "C" or better is required for graduation. Courses may not be used to complete more than one category.
