Networking

itcap™

What is networking?
Computer networking is simply a group of computers and devices (like printers and copiers) that are connected to each other for the purpose of communicating with each other. In addition to sharing hardware, users share files and software and other resources.

What will I learn?
In addition to addressing the current technologies, you'll learn the skills required to:
- design and implement functional networks.
- configure, manage, and maintain essential network devices.
- use devices such as switches and routers to segment network traffic and create resilient networks.
- identify benefits and drawbacks of existing network configurations.
- implement network security, standards, and protocols.
- troubleshoot network problems.
- support the creation of virtualized networks.

Can I take this class online?
Yes, you can. The class is online, and you'll have access to it 24/7. The best feature is that an instructor is assigned to you – on day 1 – for the duration of your class. They are 100% confident that if you follow their direction, you'll be successful. Instructors are available via text, phone, or email.

Do I get a certification?
Depending on your experience level, this class prepares you for CompTIA's Network+ certification or Microsoft's Networking Fundamentals certification.

Are there any prerequisites?
Yes, CompTIA A+ certification and 9-12 months of experience, but that can be waived based on your experience. We'll have you speak with one of our knowledgeable instructors to help determine which certification is right for you.

How long will it take to finish?
Many students complete the class sooner, but we give you three months so you can work at a pace that fits into your current commitments.

Will my tuition assistance program benefits cover the cost?
Yes, if you have enough funds in your tuition assistance account, there are no out-of-pocket expenses. Wow! You can get an internationally-recognized certification with no out-of-pocket costs.

How much does it cost?
The tuition is $1,400, and your tuition assistance program covers the cost of the class, the materials, and one certification exam voucher.

When does the class start?
This class starts most Mondays. Register early to get the start date that works for you.

How do I register?
1. Visit www.itcap.com/VZW-ITcerts/Register to register online, or
2. For more information, email us at info@itcap.com, or
3. You can call our helpful staff ☺ at **877-877-0122**.
